Please don't let those teardrops start
I love you with all my heart
There's no reason to be sad
Chase those blues away

Don't you worry I'll be true
In my heart and all that I do
Clear as night and bright as day
Chase those blues away

Chase those blues away
Let me hold you near
If they come another day
We'll chase them far from here

If you ever feel in doubt
Talk to me we'll work it out
Just remember I love you
Chase those blues away
